

Fishing at the Byskeälven

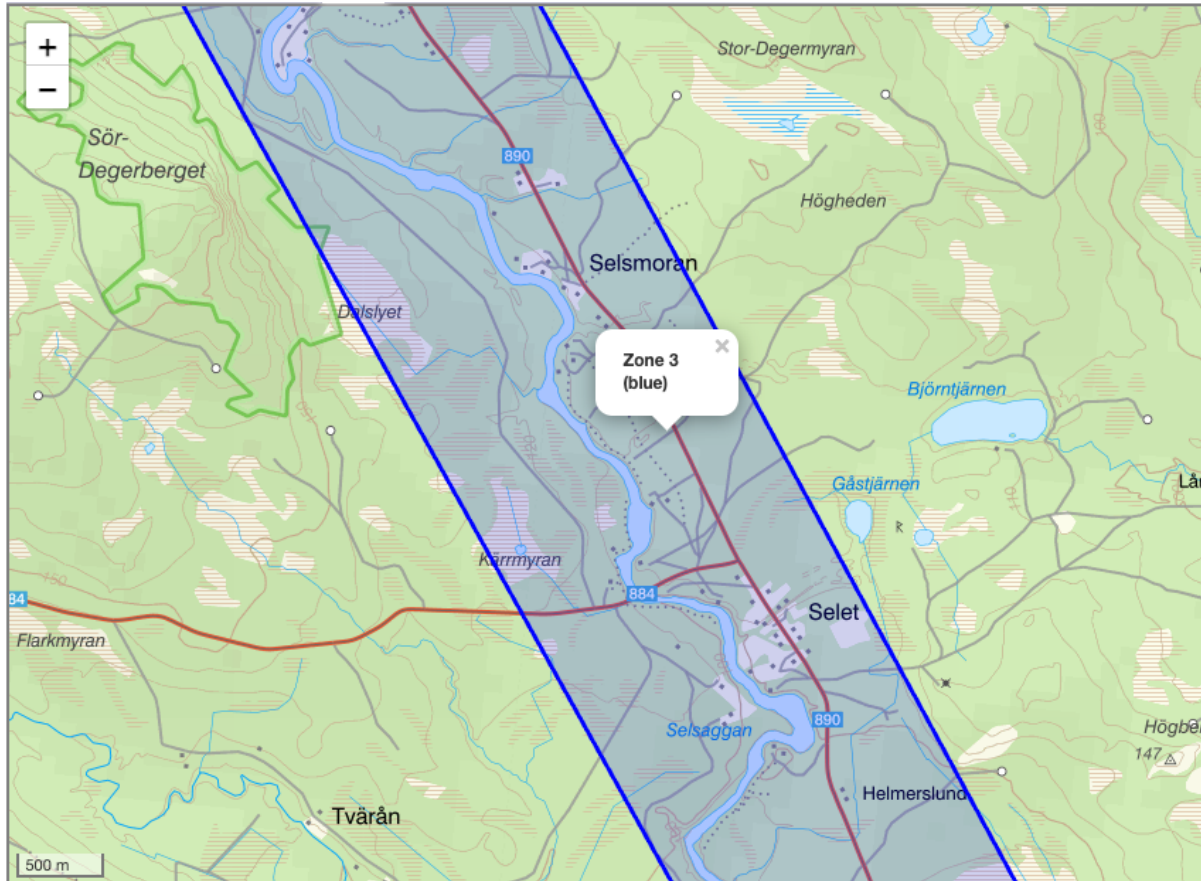

-

Stuga Selsmoran

We do hope you enjoy your stay with us at Stuga Selsmoran and, when you are here for fishing, enjoy your time at the Byskeälven.

First of all, please make sure you have fishing license. This license can be bought online at <https://www.ifiske.se/fiskekort-byskealvens-fvo-vasterbottensdelen.htm>

The Byskeälven is divided in zones. Here at Stuga Selsmoran we are in Zone 3.

A detailed map with all the zones can be found here:

<https://www.ifiske.se/karta-byskealvens-fvo-vasterbottensdelen.htm>

Please keep an eye out on the environment. Unfortunately not all places are clean, but lets make sure we take all trash with us and put it in the containers next to Stuga Selsmoran.

In this document I will highlight some fishing spots with a starting point from Stuga Selsmorán.

Spot #1

Of course, close to the Stuga Selsmorán we have the path through the forest and down to the Byskeälven. There is also the possibility to create a fire, please be carefull with open fire as a bush fire is easy to create, especially in dry season. **This is Zone 3.**

When you leave Stuga Selsmoran and go to the left, follow the AC890 into the direction of Fällfors.

You will first pass Hällfors and quickly thereafter you will have a corner in the road to the left, after approximately 1.1 kilometer there is a sign "Byskeälven".

This is the Homforsheden.

Go to the left and follow Homforsheden. The Byskeälven has some excellent fishing spots here. This is already **Zone 4**.

Please be careful, this is an offroad path, some parts are steep and have some holes in the road.

Spot #2

After approximately 1.1 kilometer on Homforsheden there is a hidden “shed” behind the trees, an excellent fishing spot close to the Byskeälven including a fireplace.

After 2.9 kilometers on Holmforsheden, you will find the next pair of fishing spots on the left side of the road.

Spot #3 - Holmforsen

Spot #3 is called **Holmforsen**. You can go approximately 500 meters by car, followed by 500 meters of walking over a rough terrain down to the Byskeälven.

Spot #4 - Storaggan

Spot #4 is next to the entry point for spot #3 and will probably be a better choice. It's called **Storaggan**. You can drive 200 meters by car followed by 400 meters of walking down to the river. A very nice spot with a fireplace in the corner of the Byskeälven.

Spot #5 - Jankforsen

Spot #5 is after 3.6 kilometer on Holmforsheden and is called **Jankforsen**. You can enter by car the first 300 meters followed by a 100 meter walk down to the Byskeälven. Here again is a fireplace.

Spot #6 - Svältholmforsen

Spot #6, in the meantime 4.9 kilometer on on Holmforsheden from the AC890.

This spot is called **Svältholmforsen**. You need to park your car at the side of the road and walk a steep path down to the Byskeälven where you will find another nice fishing spot and a fireplace.

Spot #7 - Droppforsen

Spot #7, is 5.9 kilometer on Holmforsheden from the AC890, called **Droppforsen**. Park your car near the toilet cabin and walk down the river. Very nice location in another corner of the Byskeälven.

When you leave Stuga Selsmoran and go to the right, follow the AC890 into the direction of Byske.

Spot #1

The first fishing spots are close by.

After 400 meters on the AC890 you will find the first path to the right. You can enter it by car and after 500 meters you will find a small fireplace and an area where you can sit.

The Byskeälven is close to you from here, but a steep path down through the forest.

Spot #2 - Ollforsen

The next spot **Ollforsen** is also close by after 900 meters!

Only 500 meters before you can park your car and a steep patch down to the Byskeälven.

Spot #3 - Aftonmorsforsen

Spot #3 is called **Aftonmorsforsen** and is 3.1 kilomter away from Stuga Selsmoran. You will first pass the village **Selet** and quickly thereafter you will have a corner in the road to the right. There is a gravelroad which will lead you to **Aftonmorsforsen**. Drive about 600 meters onto the gravelroad and park your car. From there is will be a 200 meter walk through the forest to the Byskeälven.

Spot #4

Spot #4 is only 3.9 kilometer away. Drive into the entry point and after 300 meters there is a split in the road.

When you go to the right and follow the gravel road you will be able to park your car after approximately 600 meters. From there it will be a 400 meter walk to the Byskeälven.

When you go to the left and follow the sand road, park your car after 600 meters and walk another 700 meters before reaching the Byskeälven.
